

S.N	Name of the Project / Programme From 2012 onwards	Starting Date / Ending Date	Objective	Priority Area	Geographic Coverage	Total Amount of Assistance (US \$)	Donor country / Institutions
<b>A. UTF/GCP/MTF Projects</b>							
1.	<u>PGM/MUL/Nepal Ginger:</u>  1. MTF /NEP/068/STF - STDF Compo.  2. MTF /NEP/068/OPS - EIF Compo.  Enhancing Sanitary and Phytosanitary Capacity of Nepalese Ginger Exports through Public Private Partnerships	2012-2014	The objective of the project is to develop the ginger value chain in Nepal, which has been identified as a high-potential sector for export, value-addition, employment and income-generation by the Nepalese government and development partners	3- Market orientation and competitiveness	Jhapa; Morang; Ilaam, Pachthar	USD 1,173,694	WTO
2.	UTF/NEP/073 Technical Assistance to the Agriculture and Food Security Project (AFSP)	2014-2018	The Development Objective of the Agriculture and Food Security project (AFSP) is to enhance food and nutritional security of the vulnerable communities in the hill and mountain districts of the Mid and Far Western Regions of Nepal by increasing food	1 - Food & nutrition security and safety	Darchula ; Bajhang; Bajura; Baitadi; Dadeldhura; Doti; Achham; Humla; Mugu; Dolpa; Jumla; Rukum; Rolpa; Salyan; Surkhet;	USD 8,629,816	GAFSP

			availability, made possible by increasing productivity of agriculture - both crop and livestock, and by promotion of diversified diets and improved feeding and caring practices for pregnant and nursing women and children up to 2 years of age.		Dailekh; Jajarkot; Kalikot; Pyuthan		
3.	GCP /NEP/072: Reducing Vulnerability and Increasing Adaptive Capacity to Respond the Impacts of Climate Change and Variability for Sustainable Livelihood in Agriculture Sector	2015-2018	The project aims to increase technical and institutional capacities in agriculture and livestock sector to respond to the impacts of climate change and variability; promote transfer and adoption of sustainable, climate-resilient and environment friendly agriculture practices and technologies to increase adaptive capacities of rural livelihoods to climate change and variability; and promote awareness raising, knowledge and education on climate change adaptation among local communities and stakeholders	4: Natural resource conservation and utilization including adaptation to climate change	Udayapur; Siraha; Kapilvastu; Argakhachi	USD 2.67 Million	GEF /LDCF
<b>B. TCP Projects</b>							

2.	TCP/NEP/3502 - "Strengthening pesticide management in agriculture to reduce risks to health and environment"	2015- 2016	The project aims at reducing pesticide risks in agriculture ensuring food safety, and minimizing adverse effects on health and environment which will lead to better health of crop producers, pesticide handlers, consumers and environment.	1 - Food & nutrition security and safety	Dhading; Kavre; Kapilvastu; Bara	USD 350000	FAO
3.	TCP/NEP/3503: Building Agribusiness Capacity of Smallholder Farmers to Market Safe Produce of Good Quality	2015-2016	The project will contribute to improving smallholder incomes and enhance access to safe produce of good quality, thereby improving food security and nutrition.	3: Market orientation and competitiveness	Not decided yet	USD 350000	FAO
4.	TCP/NEP/3501 TCP Facility  Baby 1 Zero hunger Challenge  Baby 2 Forest Bank Identification of potential forestry projects in Nepal	2014-2015	This TCPF will support Government of Nepal to Launch of Zero Hunger Challenge Initiative. The second component supports in the identification of potential projects in the areas of forestry and biodiversity and preparation of proposals and/or project documents for the identified project ideas	2: Institutional and policy support environment	National	USD <u>86,717</u>  64,711          22,006	FAO
<b>C. Emergency Projects</b>							
1.	OSRO/NEP/401/USA: Immediate technical assistance	2014-2015	The overall objectives of EPT-2 programme under the aegis of	1 - Food & nutrition	National	USD 160,000	USA

	to strengthen emergency preparedness for highly pathogenic avian influenza		One Health and the Global Health Security Agenda (GHSA) will include the mitigation of the impacts of novel “high consequence pathogens” at animal-human and environmental interface through early detection, national level preparedness for effective response and reduction of risk of disease emergence.	security and safety			
<b>D. UN Joint Programme</b>							
1.	UNJP/NEP/069/UNJ Gender Responsive Recovery Peace Project	2012-2014	The project aims at supporting the conflict-affected women recover from psycho-social hardships and enhance their participation in community-based economic recovery initiatives	1 - Food & nutrition security and safety	Kavre, Ramechhap Sindhuli	USD 265,000 (FAO component)	UNPF
<b>E. Regional Projects</b>							
1.	TCP/RAS/3405(GCP/RAS/276/1 FA)Institutional Capacity Strengthening for Analysis, Design, and Dissemination of Policy Approaches to address Risk and Vulnerability of the	2013-2015	Studies and policy analysis report prepared, Mid-level govt. Official trained in policy analysis , Regional and national experiences with policies on risk and vulnerability of smallholder farmers and	2: Institutional and policy support environment	Cambodia, Lao PDR, Nepal, Vietnam	USD 458,000	

	Rural Poor at the country level		landless people documented and disseminated				
2.	TCP/RAS/3501:Implementation and Certification in Countries of SAARC	2014-2016	The project will support in the development of Standards and Scheme for Good Agriculture Practice (GAP) Implementation and Certification in Countries of SAARC	2: Institutional and policy support environment	Bangladesh, Bhutan, Maldives and Nepal	USD 479,000	
3.	GCP/RAS/284/JPN Enhancing Understanding and Implementation of the International Treaty on Plant Genetic Resources for Food and Agriculture in Asia	2012-2015	This project supports the implementation of Global plan of action for the conservation and sustainable utilization of genetic resources for food and agriculture and international treaty on plant genetic resources.	1 - Food & nutrition security and safety	Bangladesh; Bhutan Cambodia; India; Indonesia; Lao; Malaysia; Mongolia; Myanmar, Nepal, Pakistan; Philippines; Sri Lanka; Thailand; Viet Nam	USD 435,000	
4.	TCP/RAS/3407 (E): Emergency assistance for surveillance of influenza A (H7N9) virus in	2013- 2014	This project aims at minimizing the impact of propagation of influenza A (H7N9) on human	1 - Food & nutrition security and	Asia and Pacific Region	USD 500 000	FAO

	poultry and other animal populations in the South Asia region		health and livelihoods.	safety			
5.	GCP/RAS/286/ROK: Support to Capacity Development in Implementation of Plant Pest Surveillance and Information Management in South-East Asian Countries	2013-2016	The main objective of the project is to promote the capacity of NPPOs (National Plant Protection Organizations) of the developing countries in South-East Asian region in implementation of plant pest surveillance and identification through the expertise training courses and workshops related to plant pest and information management.	1 - Food & nutrition security and safety	Cambodia, Laos, Myanmar, Nepal, Thailand and Vietnam	KRW 1 926M (equivalent to USD 1,796,642)	Government of Korea (ROK)
6	TCP/RAS/3409: Building statistical capacity for quality food security and nutrition information in support of better informed policies	2013- 2015	The project aims at enhancing the accuracy of food security and nutrition data and the analytical skills at country level for sound policy decision making towards promoting food security and hunger reduction.	2: Institutional and policy support environment	Bangladesh, Lao PDR, Philippines, Nepal	USD 450 000	FAO
7.	TCP/RAS/3502: Reduction of post-harvest losses in horticultural chains in SAARC Countries	2014-2016	The project will contribute to strengthening capacity within the post-harvest sector to contribute to food security and nutrition, by improving produce	1 - Food & nutrition security and safety	Afghanistan; Bangladesh; Bhutan India;	USD 487000	FAO

			quality and safety, and reducing post-harvest losses.		Maldives; Nepal; Pakistan; Sri Lanka		
8.	TCP/RAS/3506: Strengthening Forest Tenure For Sustaining Livelihoods and Generating Income	2014-2016	The major objective of the project is to strengthen regulatory and institutional frameworks related to forest tenure in the pilot countries	4: Natural resource conservation and utilization including adaptation to climate change	Cambodia;  Nepal; Viet Nam	USD 375000	FAO
<b>F. Global Project</b>							
1	GCP/GLO/324/NOR Right to Food	2012-2015	The project aims to support the Government of Nepal to promote, protect and monitor human rights in programmes, policies and legislation on food security and right to food in Nepal	2: Institutional and policy support environment	National	USD 185,541 (Nepal Component)	Government of Norway
2	PGM/MUL/2012-2017/FFF: Forest and Farm Facility Nepal	2014- 2016	The project aims to increase household income of the smallholder, women, community and indigenous peoples groups by sustainable management of forest and farm resources	4: Natural resource conservation and utilization including adaptation to climate	Kavre; Nawalparasi	USD 500,000 (Nepal component)	Government of Finland

				change			
3.	EP/GLO/802/GEF: Conservation and management of pollinators for sustainable agriculture through ecosystem approach	2009-2014	The project aims at providing integrated and accessible knowledge base for management of pollination services for farmers, land managers and policy makers along with enhanced conservation and sustainable use of pollinators for sustainable agriculture	1 - Food & nutrition security and safety	National	USD 193, 258 (Nepal Component)	GEF Trust Fund
4	UNJP/GLO/386 UNJ baby -1 UN REDD	2014-2015	The project's major aim is the assessment of national Policies, Laws and Regulations (PLRs) and institutional arrangements pertaining to REDD+ and to identify gaps and overlaps for REDD+ implementation	2: Institutional and policy support environment	National	USD 51,760 Nepal component	UN REDD Program UNDP/UN EP
5	GCP/GLO/416/UK Integrated Food Security Phase Classification (IPC) Chronic Roll-out Project in Nepal	2014-2015	This global project aims to improve the shared understanding of the food security situation through standardized food insecurity scales, enhance food security analysis capacity at national and regional levels and increase technical consensus to support coordinated decision making.	2: Institutional and policy support environment	National	USD 35,300	UK

6	GCP/GLO/ 508/ IFA: IFAD – FAO initiative in Nepal	2014-2015	The objective of the support will be to ensure quality of support services through FFS. Activities will include (1) planning of FFS roll-out; (2) implementation support and (3) monitoring and evaluation.	2: Institutional and policy support environment	National	USD 51760	IFAD
